

## Road Update

11-21-13

The Town of Windsor's Public Works take pride in making sure our roads are safe to travel. We will strive to maintain the roads in the winter to the best of our ability and keeping them cleared and safe to drive. If anyone has a concern about our roads, please contact the Town Office at 207-445-2998.

The two state roads (Route 32 and Route 105) are maintained by the state which includes paving, ditching and culverts and the Town of Windsor is responsible on plowing them in the winter. Therefore, the recent paving that was done on Route 32 was done by the Maine State Department of Transportation.
